Comments: I contacted Igshaan who told me he spoke to the driver then told him he would phone right back and that he just wanted to check whether if his parents are home. According to Igshaan as promised he did phone right back then spoke to someone called Stephen whom he informed his parents are home and the dog's maybe collected to which Stephen said he would inform the driver.

I rearranged for anytime between 9am- 15:00pm on Monday or Wednesday and Igshaan said he'd ensure someone be home those day for the collection of the Animals and the driver can go directly to given adress.

Kindly allocate to a collection officer.
