Dear Vincent

Thank you for your email and concern for these two dogs.

If the enclosures were not cleaned, then urine would be present, even if you allege the dogs are eating their own faeces. There is cleaning material on site, kept with the guard, as is the food the dogs are fed.

Inspector Philander has asked you to please provide us with an affidavit – I have not yet seen such an affidavit. Without evidence, we cannot take action.

@Rudolph Philander please arrange for the area inspector to visit the site again tomorrow. Thanks.

We look forward to receiving your affidavit.

Kind regards

Jaco Pieterse

Yes,

The more I investigate it the more I realize that they are following no standard. I call their office.

The guards say that the kennel is clean, and your inspection confirmed that the living condition are good right?

Have you notice there is no broom no skoopie nothing on that site? The dogs are eating their own poop that's why it looks clean. The guards are not cleaning it with there hands they barely feed the dogs never mind letting them patrol.

The two male dogs are urinating against the fence trying to mark their territory there is no running water there is no soap nothing that they show they clean the kennels.

Kind regards.

Good day.

I have not had a chance to go to the police station yet.

I have however spoken to the manager and both guards, I have made them aware of my stance and the dogs are being opened daily and nightly for the last 2 days I am actively monitoring it daily as well and if it changes, I will revert with all information avadavat videos and sign petition if needs be.
