Comments:	Johan called me again and told me that he is going to be honest but he has not fixed anything yet. Unfortunately I answered accidentally without Telviva . He mentioned Vets and Law Enforcement saying we are being petty etc. I just listened and asked him whether tomorrow morning at 09h00 is fine to meet and to have the receipt ready for the two dogs that he euthanized. He eventually agreed to this. He also mentioned possibly taking the dogs to some farm that he spoke about previously. He did show me a video of lots of pointers and sniffer dogs on a farm somewhere but no indication as to where they are kept.
