Comments:	Upon arrival I met owner's wife who told me that she cannot guven me access onto property as her husband is not there and as her husband is not allowed to set foot on that premises. She also told me that they are still busy moving, but that the last things should be moved over to their new property in Ruyterwacht. She then told me that her husband's phone has been stolen as I told her that I have been trying to get ahold of him. I then asked for her number to get ahold of her husband. Yvette no.0676526109
