General Report Comments: Upon inspection, i met with Durand. There was 1 dog free roaming inside the house with access to water and a clean living environment. The dog appeared in a fair condition.

He took me to the side of the property where 10 dogs and 1 puppy was free roaming. They had access to water and adequate shelter. The living environment was dirty with a lot of faeces. He told me that he clean it every 3rd day. I told him that he must clean it daily, especially due to the number of dogs that he has. None of the coats were matted as the dogs appeared in a fair condition. He want to keep all the dogs and told me that his grandparents passed away not too long ago sk they took his grandparents dogs. I spoke to him about sterilization and he agreed to have 9 dogs sterilized. He denied that his sister did beat the dog as well.

I issued a warning to:

(1)clean living environment within 24 hours.

(2)there is an allegation that someone on the property did beat the puppy with a dishcloth and if any evidence is obtained, further legal action may be taken against them

Warning Issued 14528
