Comments, if any:

Upon arrival, we met with Nafiz Malder who gave us access to the property. He also informed us he is the owner of the animals on the property. He told us that the time when the SPCA inspector was there he was not home so he didn't fully know all the details of what was spoken and such but he is willing to sterilize the dogs. He also said they had just bought the goat and was keeping it there for the day before it will be moved to the farm. I informed him that he must make a plan to sterilize the dogs within the next 2 weeks. A compliance notice was issued for the sterilization.

The goat was removed off its tether and a Section 56 notice was issued for keeping a goat at a residential property without permission from the city.
