General Report Comments: Upon my arrival, I met with Portia. I observed the puppy, Stompi, on a short leash that is tught around his neck and without water. I told Portia he needs to either be allowed to roam freely and she secures her property accordingly, or he must be placed onto a running chain, allowing him access to her whole property. I told her she needed to use a heavier water bowl so that he never knocks over his water. She immediately provided him with water and said her husband would loosen the leash when he gets home. I gave them 72 hours. Follow up for Monday. Warning 18322 issued to Portia instructing her to ensure her dog has access to water at all times, instructing her to clean the dog's living area and to let the dog off the tether or convert it to a running chain within 72 hours.
