Only got the information on Thursday after the official from Cape of Good Hope SPCA came to the Happy Valley Home. According to the Anonymous the Baby Baboon was already injured when Banele was chasing after the mother. She said she noticed that the mother was dragging the baby instead of carrying her. When the perpetrator threw her with the stone it's then that the Anonymous told Andrew that the baby is already injured. I ran out of the dining hall and saw the female baboon sitting opposite the dining (dorm) kitchen. Andrew had already screamed out loud that all clients (residents) were there looking at the baboon. I went closer as Andrew said the baby was bleeding. I saw that there was a cut on the side of the mouth and the baby was bleeding. This is still very traumatic for me and it's hard to put this in writing as I'm still crying. I immediately ran and called Jomic the supervisor. I was already crying at a time. I showed Jomic the injury and that the mother was feeding on herself. The mother was sitting and she feed on herself while the baby was suckling at flat empty breasts. Jomic went and called the Manager Patrick. At a time that Jomic called the Manager

I was already in the female dorm. Jonic called the Baboon Rancher management in Simonstown or be Simonstone. The white woman whom Jonic said to me was a manager for the Baboon Ranchers said to the manager that the man who hurt the Baboon must be removed from the home. The manager refused or didn't remove the individual. When the official from the Cape of Good Hope SPCA went to the home I told the manager who said I was wrong to report the incident. He also claimed nothing happened to the Baboon. He said if the Anti-Animal Cruelty People come it has nothing to do with him. On the same day he served me with a letter of eviction. The manager is protecting criminals that they hide in the shelter. I've been the only one who's been vocal about how even the Baboon Ranchers inflict fear on the Baboons by acting like vigilantes. These people (Baboon Ranchers) scream and run after these Baboons like they are chasing a criminal when they themselves are practicing criminality on the Baboons. The sound of the BB gun that they use is terrifying enough and it's traumatic, they terrorize and shoot at these Baboons for no apparent reason. In yet another incident during May a Baboon was hit by the car and the driver ~~drove~~ drove off leaving the Baboon limping as he ran away.

Please, I'm appealing to you to do something to save these Baboons.
