Subject: FW: Vet's report needed - Bennie - INSP216887

Hi Jaco

I requested a vet's report from AACL regarding a case we are dealing with the dog has a large growth on the back and not improving. The owner previously took the dog to a private vet upon our request but was advised that he has the option to PTS the dog but he did not. The dog was then given pain medication by the same vet. The dog was previously at AACL but they could not operate on the dog and he said he would bring it back to them should the dog get worse.

I suggest we go to the property with LE to seize the dog under Reg 468 and then take the dog to a private vet for assessment and the way forward. If the vet recommends the dog needs to be humanely euthanised then we can do it at our vets.
