Free roaming - in property

Adequate space:

Yes

Clean living environment:

No ***

Water available:

Yes

Adequate shelter available:

No ***

Animal/s in good condition:

Yes

Veterinary problems / health concerns:

No

Comments, if any:

Upon arrival, myself and Inspector Lee Prins from the Cape of Good Hope SPCA met with the owner, Mr. Therry Jacobs, who granted us access to the property. I observed the animals in question all free roaming on the property still and in fair body condition, but the living area was quite dirty with rubbish all around. There was water available, however there was still not adequate shelter available for the adult dogs, as the puppy and the cat lives inside the house. The owner told me he has been struggling to get materials for the shelter, but he should be sorted soon. I told him he needs to get it done as soon as possible, and he needs to keep the living area clean for the animals.

I issued a final warning notice, 21848, to:

1. Provide the animals with adequate shelter against the elements within 48 hours.
2. Clean and hygienically maintain the animals' living environment within 48 hours.

The warning was co-signed by Inspector Lee Prins and I and was signed and accepted by the owner Mr. Therry Jacobs. I asked Therry if he has decided on sterilization and he agreed that all the animals can be sterilized. I told him I will have my office arrange the sterilization, however the puppy will be done in the future once she is older.

ACTION TAKEN :

☒ Warning issued

Number: 21848

OUTCOME / FOLLOW-UP :

☒ Follow-up inspection to be conducted

Follow-up inspection date / period: **November 19, 2025**
