Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2025-11-21
Comments:	As requested by the area inspector, we need a qualified inspector to take over and if the owners are still denying access, we need to apply for a warrant. From the Inspector and the respondent "[11/20, 09:19] Lameez: Good Morning Sivviwe I hope you doing well over there. Ive been informed that there arnt available vehicles to bring me back home today. Could we try nx Tuesday theres we end the sterilization campaign nx week and by Thursday my schedule is clear till nx years sterilizations. [11/20, 09:27] Lameez: Ive had a discussion with Sandy at the PDSA Bridgetown. The case was made by the neighbors at 5 Vincent Cresent Hazendal and Sandy called to indicate animal cruelty for there xl pitbull. You can call her to discuss these details with her to help clear up the matter. Shes suggested we counter act by calling about the neighbors dog as the weight isnt increasing and the chains sometimes still shorter that he is on. I am being harassed by the owner of the pitbull to give him food for his dog and Im feeling that if we considered this as an option that he will try to harm me. If you could help me avoid further harassment and possible fatalities and harm to me and my animals id be grateful. As he is a known mental case and possibly medicating to help his mental condition. Im afraid for my life. I do however need a solution for the malnourished animal and I think its important to consider carefully what to do next." I have discussed the case with Inspector Rudi, and agreed that we must send an authorized inspector as the owner always give excuses when the meeting day and time comes. This case has been dragging ever since it was logged on the 20th of October and month later we are still unable to conduct an inspection on this property.
