Comments:	Dear Joostenberg Vets, We trust this email finds you well. During a recent inspection by the SPCA at a property in Joostenberg Vlake , we requested the owner seek adequate veterinary treatment for her cats, which she did and brought them to your facility. There were some alarming findings noted in the vet's report compiled by Dr Liesl Shaw and Dr Brook, who assessed the different cats on different days. We compiled a document with questions that we require answers urgently so that we can determine what actions need to be taken for the cats, as soon as possible. You are welcome to answer the questions directly on the document or on this document . Thanking you in advance.
