Comments:	Spoke to the respondent earlier about when to come for the inspection, she informed me that the compromised dog was taken yesterday to the vet and due to signs of cancer, they were advised to euthanise which they did. I then called Strand Animal Hospital and spoke to the vet who saw the dog Bella. He confirmed the dog was euthanised but he said in his opinion the dog suffered alot from external parasites, as the dog had lots of fleas on it. He said the skin condition could be from that as well and he is not too confident on the welfare of the other dogs at the property if that is how the dog Bella was. I thanked him for the information. Now I called the respondent to see if I could come do the initial inspection but she said she is not home and asked for another day. I arranged for Monday morning as I have my assignment inspections tomorrow.
