Comments:

I have called the owner on his given cellphone, he tipd me that, he did sent the video of the puppy as well as the picture of the vaccination certificate, and it also showed that the puppy was vaccinated On the 09th of December 2025, on our mobile clinic. The owner sent to SPCA'S whatsapp number at approximately 13h37.

The puppy appeared to be in a good condition and the puppy did gain weight.

I have requested the owner to resend the picture and the video to me, he complied, then I forwarded them to control to upload as my cellphone doesn't allow me to upload pictures received via WhatsApp.

I think we may close the case.nfa
