Type:	CASE DISCUSSION NOTE
Follow-Up Date:	
Comments:	Upon arrival I assessed the situation Property owners are friendly The bird which is a cape sparrow fledgling appears healthy and alert the nest was in a lemon tree all in tack The parents are around so I decided to put the baby back and asked the property owner to monitor the bird If the baby comes out again we will collect as we need to give nature a fair chance to survive they understood and will monitor As the spca does not have the capacity to care for most fledgling this decision was made for the birds survival
