| Comments:       | I called the respondent and the wife answered the phone. She said they do clean up regularly and use detergents but they work whole day and so the dog would make the yard dirty in that period which I can understand. The wife also said they were chaining the dog as they were worried it would jump on the glass door but no longer chain the dog. She also said there is a yard at the back for the dog if it being kept in the front becomes an issue. I told her I would do an random check to see if the dog is free roaming or chained up. |
