Postal Code:	7975

Inspector:	NICOLE VENTER

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2025-05-29
Comments:	Yesterday, we inspected here but there us ci fusion with the addresses so we did not do a report and will come to Jason today because there should either be a correction made or a different case opened . The dog described in the report is actually from 52 Mars Way, not 58. Will discuss with Jaisn before uplaoding the report pr the note with the details as sterilization does need to be arranged as the dog has shelter and water and is free roaming.
