Shot by pellet gun

#### Plan

Plan/advice: Admit for X-rays and potential exploration of the wound if pellet is still inside the body.

Estimate +-R3000, may be more depending on where the pellet is.

X-rays: Pellet lodged in the subcutaneous tissues/muscle of the back  
No evidence of pneumothorax

Plan: Pellet not causing any damage/issues in its current position  
Leave in place for now, monitor for any swelling etc.

Rx: Petcam inj, oral Petcam TGH for 5 days  
Clamoxyl inj, oral Clavet TGH for 7 days

#### Medication

**Prescribed By:** Dr. Lara Van Der Merwe  
0.68 x Petcam 5mg/ml inj (per ml) Meloxicam [10ml bot]
