Comments:	I showed Jason the photos and asked for his advice. He told me to go to the vets and show them the photos to see if we should issue another warning. I went and showed the footage I took to Dr Chizelle and Dr Lelani. They with agreed that even though the other dog was completely fine and there wasn't bleeding or inflammation, the dog needs to be brought back for further vet treatment. Chizelle recommends that the dog is brought in by Friday.
