I hope this was done as this evening the pittie, as seen in the video attached, is running with a tight rope / string around his neck which was then promptly dragged down the road with the black adult dog. You can also hear the other dogs in distress in the back. If you have not been back as yet, could this please be followed up again. Thanking you in advance. Tamaryn Pillay 2025-07-23 19:54
