Comments, if any:

Upon arrival for the follow-up visit, the owner allowed Inspector David's and I to enter the property for the follow up inspection.

We observed that the owner had cleaned the dogs shelter environment and had also cleaned the living environment. There was a kennel for the two dogs as the brick structure is adequate to have 2 dogs in it and the kennel is sufficient for the third dog on the property. There was water available which was clean and the water bowl was clean as well.

The dog named Bruno that was slightly underweight appeared to now be in a fair condition after deworming and

receiving adequate food.

We did not observe any welfare concerns so the matter may be finalized.
