Comments:	While I was doing my SAE at AWS Philippi, I spoke to Jacques about this case. He informed me that while the dog was issued a 14 day medication schedule, the dog needs to come in for the surgery as soon as possible as its condition is bad already. I told hin that the respondent told me that she had 3 months to do it, but he said no thats not true. The dog needs to come for the surgery as it is suffering currently. I decided to address this with the respondent at the follow up.
