Subject: 51 Hout street Peerless Park North Kraaifontein_dogs in distress?

Good day.

I wish to remain anonymous. I and the other residents on the property has raised the concern with the person living on the property, the man at the entrance on the left side of the property when facing the property.

His pitpulls(i think) had puppies a few months ago and there is now 4 or 5 of them on this property, constantly barking and they also climb onto the doghouse into the tree next to the wall.

People in the street is complaining for months now and I could never figure out where the barking was coming from until i took a walk 2 weeks ago and also had a chat with the other people living on that property. Even the owner of this property advised the tenants to find other homes for the dogs but he is obeying.

They are kept in a small area in front/side of the house, when the other residence enter or go out or move around in the yard they start barking and it goes on and on. These dogs is looking for attention and there is no one home.

Can someone please investigate.

Kind and warm regards,
