REPORT

Access granted by: Brandy Perries

Were any animals seen on the property? Same animal/s as previous inspection

FINDINGS

Confinement of animal/s: On running chain
Reason for being chained or caged: There is no fence
Adequate space: Yes
Clean living environment: Yes
Water available: Yes
Adequate shelter available: Yes
Animal/s in good condition: No ***

Upon arrival for the follow, the owner allowed Inspector Davids and I access to the property. We observed that there was kennels for the two adult dogs and the owner had also adequately fixed the puppies kennel.

There was adequate space and there was water available as well. The owner showed us proof that he had taken the puppy named Brownie to the Animal Welfare Society of South Africa for veterinary attention, he did not take the adult xbreed named Tango but we would see that the dog was in a fair state and did not appear to require veterinary attention. The puppy received doxy for 7 days and also treatment for the skin condition and is due for follow-up on 17 August 2025.

I gave the two healthy adult dogs flea and tick treatment and dewormer as well. I did not give Brownie any as the puppy is currently being treated for a skin condition and the weight concern.

Follow-up will be conducted on 17 August 2025.
