Comments, if any:

Upon arrival, myself and Inspector Lwazi Ntungele of Cape of Good Hope SPCA met with the owner of the dog, Mr Adrian Kortje, who granted us access to the property.

We observed an adult male X breed dog, fair body condition but chained on a short static chain. The dog had access to adequate shelter and water. The living area was clean and hygienically maintained. The owner explained that they put the dog on a tether as they scared of someone hurting the dog if they not watching as it has happened previously to another dog they had. I explained to the owner that that is not sufficient reason to tether the dog as the property is fully enclosed so the dog should not be tethered at all. He agreed and untied the dog, allowing it to roam freely.

I issued a warning, 21807, to:

- Unchain the animal immediately to roam freely inside the property.

The warning was cosigned by myself and Inspector Lwazi Ntungele. The warning was signed and accepted by Mr Adrian Kortje.

I also administered dewormer for the dog, and arranged with the owner to assist with sterilizing the dog.
