Comments, if any:

Upon arrival, myself and Inspector Lwazi Ntungele from the Cape of Good Hope SPCA knocked and shouted from the gate but there was no answer at the property.
From the gate we could observe an adult female Pitbull dog, fair body condition , and an adult male Pitbull X dog, fair body condition. The dogs were free roaming in the property, with access to adequate shelter but we could not see the water buckets. We went next door to ask the neighbor if we can check over from their wall, where we confirmed as such. The living area was dirty though, with accumulated faeces.
I issued a warning, 21814, to:
• clean and hygienically maintain the animal's living environment within 6 days.
• Contact the Cape of Good Hope SPCA 6 to discuss the concerns.
Myself and Inspector Lwazi Ntungele cosigned the warning, and I attached it to the front wall of the property.
