A few times now they have been howling, not barking in a nuisance way, but as if they're in pain. It's been going on for 45min currently We also know from the limited contact with the woman who lives there, that her boyfriend is there and never leaves the house because he's scared. So we know someone is likely there, and the dogs are howling and seem really distressed I would just like to make it very clear, this is not a disturbance, it really sounds like they are in pain POPI Consent I agree to the processing of my above mentioned personal information for the purpose of electronic communication Riyaadh Salie 2025-09-14 20:07
