Date	Time	By	Code	Description	Qty (Variance)	Amount
------	------	----	------	-------------	----------------	--------

DR MM and Dr JVW had a look at the leg
adv to remove the growth but chances is that it will be
difficult to stitch it up other option is to treat as a open wound
after the growth is removed
as per the owner financially he will try to see if he can come end of october
for growth removal explained to the owner the longer he waits the more it will cost him for the
procedure

Plan- will give some pain medication for now and see back
