Subject: Dog Owner (30 Dorchester, Devils peak Estate)

Dear Inspector Jeffrey Mfini

It was brought to my attention that the SPCA was at my flat yesterday with reference :24014

(Point 4 as pointed out)

We have had repeated visits from the SPCA due to concerns raised by the same person for the past few years.

In 2023/2024 we were asked to take our dog Sniper to the vet which we did, she was then diagnosed with albinism, which explains her skin condition.

(Point 5)

With regards to the dog's living environment, we feed her before leaving for work hence the reason for the poo in the yard in the morning, which gets cleaned up as soon as we get home from work.

This has been an ongoing thing with 1 specific person or individual and actually has nothing to do with the dog as she has a personal vendetta and nothing to do with the dog's welfare. If there were genuine concerns I believe the SPCA would do what's best for the dog and have her removed from us. Is there no possible way to look on your system as to how many times you were called to come out to us. I do acknowledge that the dog is the main concern however she is my main priority as well.

Regards

Dog owner.

Simone Daniels
