Subject: Rivendale Farm, Tinkerberg road, Durbanville

Good day and happy 2026

Attached please find a photograph of an old horse I spotted on the farm while following up on possible sightings of a missing lab.

The second photograph is of a 34 year my old rescue - his teeth get floated, his feed is soaked and he eats twice a day. He is dewormed quarterly.

There is absolutely no reason for a healthy old horse to starve like this. Please can a health check be followed up soonest.

Regards
Caron
