What are you reporting?  
Neglect

Further information

I was at a bar called Sink & Drink. The bar has 2 Jendaya Parakeets. During my 2 hour stay I observed multiple people smoking cigarettes withing a 2 to 5 meter radius of the birds. 1 of the parrots screams regularly (screaming typically associated with distress) and the other parrot is unable to vocalize, and when he does its just a soft hoars sound. The birds are lethargic, sitting fluffed up with squinting eyes. Smoking around parrots is deadly, and in that environment where customers come in and smoke at the bar, I believe this is a severe health risk for these animals. Nicotine is toxic to birds and with the amount that these birds have to endure they won't be able to survive that environment for long.

Cape Town Metropole

My report falls within the greater Cape Town Metropole.
