General Report Comments: Upon arrival, I called out and was met by an adult male and his wife. I introduced myself and explained the concerns that had been reported.
The owner explained that the mother dog appeared underweight because she was currently lactating. He further stated that he had previously contacted the SPCA before the dog became pregnant regarding sterilisation but was advised that a transportation fee would be payable. According to the owner, he was unable to afford the fee as he is currently unemployed.

I observed the animals on the property, comprising a mother dog with three puppies, an adult male Collie-cross, and an adult female Pit Bull-type dog. The mother dog appeared underweight, while the remaining animals were observed to be in good body condition.

The owners requested to surrender the mother dog, stating that the property had been sold and that they were no longer in a position to keep her and the Collie cross. They also indicated that they wished to surrender the Collie-cross dog. The puppies had already been placed in new homes.

At the time of the inspection, I did not have available space to accommodate the dogs. I therefore contacted Control and arranged for a Collection Officer to attend the property and collect the animals for surrender to the SPCA.
