General Report Comments: An inspection was conducted on-site, with access granted by the owner.

Animal & Health Assessment:

Feline Resident: One cat on the property sustained a severe nose injury from a violent fight with another cat approximately three months prior. The owner treated it with antibiotics and reported significant improvement, with the cat continuing to eat, drink, and move normally. However, the cat was not present during the inspection as it roams the neighborhood.

Canine Residents: Two dogs were observed in fair body condition and free-roaming on the property. One older dog previously underwent eye surgery following a growth-related eye loss and has fully recovered with no ongoing issues.

Environmental Conditions: The animals have access to adequate shelter inside an enclosed entertainment area on couches, along with clean water and proper food supplies in a clean and spacious living environment.

Directives & Warning Issued:

Warning Notice Number: 25848

Directives: Instructs the owner to provide the sick/injured cat with veterinary treatment within 48 hours and to supply a veterinary report to the SPCA.

Service: The warning was signed and accepted by the owner.

Case Status:

Open; pending receipt of the veterinary report and follow-up on the cat's medical evaluation.
