Subject: cruelty case

Apologies, please ignore my last email. It is just this ONE property I wish to be attended to again please.

The other 2 you had closed the case after you checked.

Good day

I reported this farmyard in Rondeberg road, off Klein Dassenberg road in July 2025 and you did check with a follow up thereafter when I phoned the case was closed.

PR 18

It is a yard with various animals from pigs to cows to goats to donkeys etc.

Nothing, but nothing has changed here in fact it has got worse with more animals, living in more filth, eating rotten food, eating food dumped alongside tons of plastic and general decay. I never see any water, the animals at times have no shelter from the heat elements.

This can no longer be considered a situation whereby the owner needs to be educated. He is hardly there, listens to no one, is hostile to everyone.

Animals are being bred for backyard sales, and probably worse, and it is atrocious with no end in sight for these poor animals. Frankly, no one on the property cares.

Can something please be done about this and please can changes be made?

I drive past there very often, and it is disgusting that animals must live like this and that the owner gets away with this time and time again.

I look forward to your response.

Regards

Lynn
