Subject: Re: CoGH SPCA: INSP226881 - Neglected cat

Hi Inspectorate,

Things have gotten worse and I would like to follow up on any update regarding this case.

Last week my cat got bit on her tail and it formed an abscess, I had to take her in to be operated on. The neglected cat is still coming to our flat and trying to find food. Have you been able to speak to the owner? I am not sure what to do from here and I'm worried my cat will get bitten again. I would just like for the owner to look after her cat and feed it properly. All the other cats in our complex look healthy except for this one.

Should I give you a call? Please let me know what to do next

Thanks,
Lauren
