Good day

CASE NO 220701

PR18 See trail mail below.

Please could I get an update on this case and any recent checks as these animals again, have not have food in a week. We drive past every day, and the animals are just scavenging through filth day in and day out.

Something must give at this property. The workers at the scrap yard adhere to your inspector for a day or so, or until the next visit and it reverts to neglect.

I first reported this last year and not much has changed looking at it yesterday.

I understand your daily, more pressing workload, but if a check up could be done it would be appreciated.

Kind regards
Lynn
