Comments: Good day Rudolph,

Thank you for your email regarding Vanilla Gericke.

To answer your questions:

1. Yes she was brought in for a health check on 21/07/2026

2 & 3. She has dental disease and several mammary tumours. Due to the risk of anaesthetic in this geriatric patient, it was decided to not pursue surgery but rather palliative treatment - NSAIDs and gabapentin were dispensed. Owner was advised re monitoring of QOL.

Should you need any more information, please feel free to contact us.

Kind regards,
Kevin
