Street:	74 MONTE VISTA BOULEVARD
Suburb:	MONTE VISTA
Postal Code:	7460
Date:	2026-08-18
Time:	14:00
Inspector:	SIVIWE NOKO
Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2026-08-20
Comments:	I am in communication with the owner trying to secure an appointment but he seems to be tired of ud viding hid house. "I do understand that you are just doing your job, and I respect that. What upsets me is that it seems the SPCA has been coming to check on my dogs every two years . I am not sure who is making these complaints, but if it is a community member, I would appreciate it if they could reach out to me directly. There are so many dogs in the City of Cape Town that are truly in need of help , and I struggle to understand why my dogs are a concern. My dogs have shelter, they are fed, they receive medical treatment, and they are healthy — yet there seems to be this continued focus on my dogs. The fuel and resources used to frequently visit my place could be put to much better use elsewhere. I would like to be clear, and perhaps you can forward this to your leadership: I do not understand why my dogs are of concern. As I stated over the last two years, the SPCA needs to be clear with me — if the intention is to take my dogs from me, then please say so. Please also check your records for the complaints that have been brought in the last two years — one complainant even went to law enforcement. I am truly baffled as to what is required from me. Sorry Siviwe for directing this at you, but please pass on my message." Siviwe Noko 2026-08-18 14:00
