Comments:	whatsapp messgae received regarding this case: As shown in the attached evidence, the dog is currently chained. It has remained chained throughout the night and has been barking continuously. When not confined to a small cage, the animal is kept chained. Please note that this is not a nuisance complaint regarding barking. The concern is the dog's welfare: it is being either chained or locked in a small cage, which appears to cause significant distress and prompts the barking out of discomfort or agony. Please feel free to use the attached video as evidence if need be.
