Comments:	I called the respondent on the given cellphone number to inform her that I'm on my way to start first thing with her and she said she is at her childs netball and it might be done by 10:30 to 11:50. I informed her that my day unfortunately is quite busy and I might not make that time. She then said that well she cant leave the netball field and that we must come next week. I informed her that we did come last week and she changed and said she said we must come tuesday. I said the matter has been pushed back long and we can't let that happen unfortunately if we dont get to do our job we will have to obtain a warrant to conduct an inspection. She said well then I must do that. Case to he discussed with supervisor for possible warrant
