Comments: Good morning Nikita, Peace, Teah

I hope you are well.

I am following up on this request.

There have been various situations which we have witnessed:

- They leave the doggie in the yard in front but tied to a pole with a short rope. No water or food near him/her.

No kennel. The doggie just lays on the one spot the whole day. Probably has to do its business right there as well.

- kennel is kept in the front yard and the doggie put in the small courtyard - we cannot see if any food or water is left with him/her.

- kennel in the front yard, doggie tied to a pole with a short rope - no water or food. On the day that the bowl is there its upside down.

I am asking again to please assist. The people get the doggies to serve as protection but then there's no proper care, interaction, playtime etc.

It's as if people have no education how to care for them.

I don't know if you have any booklets - "Proper guide to care for the animals who are forced to serve you" (apologies for my sarcasm).

Education needs to happen and stricter enforcement of the law needs to happen.

Please provide me with an update whether contact has been made with the people at nr 14 Louise Crescent.

Rainy weather is coming the weekend and a big doggie has to either and hopefully at least sleep in the small kennel - if they actually remember to see to him/her.

Thank you for your time.
