Comments:	I phoned ans spoke to the owner. He told me that he is a truck driver and cant make himself available during working hours. He said that he just got home so I can either come now or video call him on WhatsApp. I first discussed it with inspector Philander who agreed that I can do the video call. I video called the owner and saw 4 dogs free roaming. All were in good bodyweight condition. The owner told me that the 1 of the dog is licking and biting his 1 leg and that the dog was at aacl before where the dog got antibiotics but it dont help and the only thing that help is terramycin which he will buy when he gets paid. He also stated that they put a buster collar on the dog during the day to prevent him from licking or biting his leg.
