Comments:	Upon inspection, I met with ZAMIAN and Jennifer. The dog was laying inside the property with a wound on his side and another wound by his stomach. ZAMIAN claimed that the police shot the dog for no reason. A member from Metro police claimed that the dogs were set on them while being inside the property which resulted in Metro using rubber bullets and SAPS using live ammo so they cant confirm if the dog was hit with rubber bullets or live rounds. Jennifer agreed to surrender the dog for euthanasia and stated they they are going to saps immediately to get the identity of the officers who shot the dog and open a case. I loaded the dog and took him to the CoGH SPCA where he was issued immediately . I also found a rubber bullet by the entrance of the wound on his side. The body was placed in the cold room as a Post-mortem must be done. Adm A77988
