Comments:	The complainant called in for feedback on the case and is unhappy with the outcome. She mentions that yesterday she went past the vagrant and the dog and noted no water or food or bowls. The dog has not been taken for vaccinations or deworming schedules has been done. The dog is also not neutered, She is using the dog to get sympathy from people and the money is being used to by drugs and alcohol. She says her frustration is that the inspector found no concerns as the animal is at risk of getting parvo and being infested with worms. I informed her to contact the Law enforcement and provided the number for her to lodge her complaint based on the by-law contraventions
