AUG 10, 14:52
Afternoon, I've been trying to get hold of you guys since last night, so i've resorted to messaging, I want to report animal cruelty by the location five Clovelly Avenue Devils peak estate , there are probably two dogs possibly three dogs at this location, who are constantly barking and crying day in a day out, the dogs are constantly in the back garden they are never in the house and they were never in the front garden and I'm one street above them and I've never seen them outside of the residence. quite often you can hear the poseable owner of these dogs yelling and screaming at their dogs all hours of the day, as it is winter it is extremely cold and rainy outside and the poor dogs I doubt that they are being property fed and the back garden is a very small space especially for multiple dogs, and I would really really appreciate it if part of your team were to go out there and speak to the people and try again inside, I personally will not intervene before you guys intervene, but if we can have some progress on a possible surrender then I'm happy to assist. Kindness regards Gia.
