Hello

I would like to raise a concern about two large dogs living opposite Woodhurst Square , close to Brackenfell South, Cape Town.

The dogs do appear to be fed, but I am concerned about the conditions they are living in. Their yard is very heavily covered in faeces, there is little to no grass, and the area is extremely smelly and unhygienic. The walls are also very dirty, and I have not seen any proper bedding or a clean area for them to rest.

They also frequently cry and bark, including at night, which has made me concerned about their overall wellbeing.

I am not trying to make assumptions about the owners, but I feel the conditions should be checked. I have attached photos taken from outside the property and would really appreciate it if the SPCA could investigate and ensure that the dogs are being kept in suitable conditions.

Thank you so much for your help.

Kind regards,
Christine
