General Report Comments: While I was driving pass I saw the calves tied up on ropes that are approximately 3-4m long without water. I spoke to the 2 boys that I saw were with them and they told me that , they are on their way to fetch water for them to drink. They told me that they do move them during the day and place them where there's shade and the reason for tying them it's because they just recently bought them and they are new to the area.
