Comments:	The owner just builded the walls and waiting to put a gate in.. dogs are at the back in the bathroom with no door just used a coach to block the do so the dogs can not run around the street as they said dogs in the area are being poisoned so they keep them inside . Owner asked for time till month end so she can put the gate up it's an old lady with childrens that are not working so they asked for time so that they can put the gate and let the dogs to roam freely in the yard
